Information required for listed invasive species (Category 2) which must accompany the application for a permit

(a) information regarding the relevant species, including-

- (i) the taxonomy of the species, including its class, order, family, scientific name if known, genus, scientific synonyms and common names of the species;
- (ii) the originating environment (place of origin) of the species, including climate, extent of geographic range and trends;

(b) information regarding the restricted activity in respect of which the permit is sought, including-

- (i) the nature of the restricted activity;
- (ii) the reason for the restricted activity;
- (iii) the location and GPS coordinates where the restricted activity is to be carried out;
- (iv) the number and, where applicable, the gender of the specimens of the species involved; and
- (v) the intended destination of the specimens, if they are to be translocated

(c) information regarding the risk associated with the listed invasive species and how the risk will be managed to acceptance level.

(a) the possible impact of the species on the biodiversity and sustainable use of natural resources of-

- (i) the area (Province and District) in which the restricted activity is to be carried out; and
- (ii) in any other area elsewhere in the Republic;

(b) any measures proposed in order to manage the risks.
