This application must be completed and signed by the applicant. If the application is completed by a third party (such as a consultant or legal representative), then this third party's details must **also** be provided as required in this application.
7. The Environmental Plan to be submitted as an appendix to the application form must include information on the following minimum public commenting process:

The renewal Application Form and all its appendices must be submitted to the Department at least **50 (fifty) working days** before the expiry of the original permit. If the original permit lapses before a renewal application is received by the Department, a new application must be submitted to the Department (i.e., a renewal application will only be considered if received by the Department while the original permit is still valid). Submission of an application for renewal does not automatically extend the validity of the original permit; therefore, the activity may not continue after expiry of the original permit unless a renewal or new permit has been granted by the Department. Permits may only be renewed once, after which a new application must be submitted.
13. Should the applicant wish to be exempted from complying with any requirements specified in regulations 4 for the granting of a permit, the exemption Application Form must be completed and submitted to the Minister.
