1. PURPOSE

To appoint a service provider to assist the department in designing, developing and editing a publication on success stories of the Environmental Programmes branch of the Department of Environmental Affairs (DEA).

2. INTRODUCTION AND BACKGROUND

- 2.1 The Environmental Programmes branch of the DEA is responsible for almost 60% of the department's budget. The Environmental Programmes branch coordinates the implementation of socio-economic interventions in the Environment and Culture sector to alleviate poverty, address inequality and contribute to job creation at local level through the implementation of projects to manage natural resources.
- 2.2 Many South Africans are unaware of the very successful work undertaken by the Department of Environmental Affairs. In advancing and promoting the successful work of the DEA through the Environmental Programmes branch there is a need for an effective communication tool.
- 2.3 It is envisaged that a publication, with full colour photographs, will recount a number of the success stories emanating from the various programmes within the Environmental Programmes branch. These stories may refer to the social, environmental and/or economic successes achieved. Moreover, the stories will also recount the Department's contribution to improving the climate change resilience of ecosystem goods and services through ecosystem-based adaptation. The stories will contain inspiring factual accounts of how sustainable approaches to management of natural resources can change the lives of people while critical environmental and climate needs are addressed.

3. OBJECTIVES

Develop, design and edit a publication of success stories of the Environmental Programmes branch work and focus areas so as to increase knowledge of the general public about Environmental Programmes' social, ecological and economic successes. Essentially, this publication will serve as a communication and marketing tool to all stakeholders.

4. SCOPE AND EXTENT OF WORK

The role of the Service Provider is to assist the Department of Environmental Affairs with the following:

- 4.1 Potential stories will be identified by the relevant Chief Directorates (including the biosecurity unit) of the Environmental Programmes branch, and these potential stories will be communicated to the service provider. From these stories, a smaller selection will be identified as flagship stories that will be further verified, researched, written up and photographed by the service provider. All collected stories will then be collated into one electronic publication.
- 4.2 The electronic publication will:
 - 4.2.1 Use new and/or existing images and photographs to illustrate and bring clarity to the text. These images should be of appropriate resolution and good composition.
 - 4.2.2 Include at least one flagship story per province and two or three other stories per province across the relevant programmes and each story will be approximately 250-500 words long depending on their importance.
 - 4.2.3 Use a magazine-type format that will ensure audience attention is captured.
 - 4.2.4 Include contextual articles of 250 words that introduce the Success Story concept (including a definition of success that may or may not originate from the respondents), and link the National Development Plan Vision 2030, Millennium Ecosystem Assessment outcomes and impacts as well as the Sustainable Development Goals with the Environmental Programmes and thus the Environmental Programmes *raison d'être*. These introductory articles may use statistics that show the impact that may include environmental and social impact of Environmental Programmes branch on a sector level, as well as the stories of success and/or change that have occurred on an individual level. The individual level must include a diverse demographic of people, which will include those working in offices to people working on the ground.
 - 4.2.5 Target audiences are varied in nature but predominantly this publication will be used to generate awareness within the minds of the general public, and the private sector. The copy, therefore, should be simple and cleared of unnecessary jargon.
 - 4.2.6 Designed with the idea in mind that it will be used as a foundation for other media channels like websites, leaflets, social media, posters and PowerPoint presentations, amongst other uses, depending on the target audience that these other media channels will be used to target.

- 4.3 Provide copy-editing services by clarifying meaning of messages, eliminating jargon, and polishing language and editing for grammar, usage, spelling, punctuation and other aspects of style as prescribed by the DEA language style guide and relevant to the subject matter and target audience.
- 4.4 Ensure required DEA branding is included on the publication as per the DEA branding guidelines.
- 4.5 Obtain sign-off on the text by DEA prior to the commencement of the artistic layout component.
- 4.6 Obtain sign-off on the final artwork proof by DEA prior to the submission of the final print-ready artwork files.

5. EXPECTED DELIVERABLES / OUTCOMES

- 5.1 Project inception report with draft outline of the publication.
- 5.2 Pictures of projects and beneficiaries
- 5.3 Final draft of publication in a digital format that can be easily edited.

6. PERIOD / DURATION OF PROJECT / ASSIGNMENT

Project must be completed within 3 months after the signing of the SLA by both parties.

7. COSTING / COMPREHENSIVE BUDGET

SBD 9**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
