1. PURPOSE

The Department of Forestry, Fisheries, and the Environment ("DFFE") / MLRF requires a Service Provider to remove sand from the boat ramps/slipway and the breakwater wall, that will result in the operational slipways and accessible breakwater wall at the Struisbaai Proclaimed Fishing Harbour.

2. SPECIFICATIONS

The removal of sand in the Struisbaai Proclaimed Fishing Harbour will have to result in approximately 500 meters³ of sand being removed from the boat ramp/slipways and the breakwater wall. The removed sand must be deposited over the western beach neighbouring the Struisbaai Proclaimed Fishing harbour. The removal of sand must take place during low tide.

Detailed description:

The Service Provider is required for the provision of services to remove approximately 500 M³ of sand per month from the slipways/boat ramps and south breakwater wall at Struisbaai Proclaimed Fishing Harbour (figure 1), for a period of four (04) months. The sand must be disposed and pushed to the edge (must not be disposed at the open field) at the western beach. The Service Provider must also attend to any sand leaks on the road that happens during the time of the project

The Department of Forestry, Fisheries and the Environment is responsible for safe navigation and therefore an improvement in water depth will contribute to the safe navigation of vessels. The removal of sand is needed to restore the required water depths at the slipways. The required sand removal should therefore be done to a level that will accommodate the safe retrieval and launching of vessels in the Struisbaai Proclaimed Fishing Harbour (Yellow in figure 2). The location for the deposition of dredged material is the western beach (Figure 2) or a location that will be agreed upon by the Department and the Service Provider. The removed sand will be used for the western beach (Red in figure 2) replenishment in line with the existing maintenance management plan. The Service Provider will be required to ensure that all sediment deposited on the beach is spread and levelled accordingly. The required sand removal from Struisbaai slipways/boat ramps and breakwater wall will have to result in approximately 500 meters³ of sand being removed.

Figure 2: Map of the Struisbaai Proclaimed Fishing Harbour

The appointed Service Provider will be expected to develop and submit a project close out-report at the end of the project.

3.1.2. Only bidders who achieve a "Yes" for all mandatory requirements and required proof has been submitted will proceed for evaluation to phase 3.

REQUIREMENT	REQUIRED PROOF TO BE SUBMITTED WITH BID	COMPLY: YES OR NO
The bidder should demonstrate knowledge and experience on sand removal projects.	A list of successfully completed projects	

3.2. PHASE 2: Preferential Points (80/20 system)

- 3.2.1. An evaluation of Price and Specific Goals Preference points on the suppliers, that successful qualified to this stage of evaluation.
- 3.2.2. **Calculation of points for price** - The Preferential Procurement Policy Framework Act (PPPFA) prescribes that the lowest acceptable bid will score 80 points (for tenders under R50m) or 90 points (for tenders above R50m) for price. Suppliers that quoted higher prices will score lower points for price on a pro-rata basis. Where functionality is set as criteria, only bid proposals that meets functionality requirements will be considered for evaluation on price and specific goals preference points.
- 3.2.3. The 80/20 as an appropriate preference point system will be used in the evaluation and adjudication of this quote. However, it must be extended that the lowest acceptable quote will be used to determine the applicable preference point system as per regulation (Section 3(2)(b) of the Preferential Procurement Regulations (PPR) 2022, which states: "If it is unclear which preference point system will be applicable, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable proposal will be used to determine the applicable preference point system". Therefore, either 80 or 90 points, depending on the rand value of the proposal, will be awarded to the suppliers who offers the lowest price, and proportionately fewer points are awarded to those with higher prices. Either 20 or 10 points are then available as preference points for Specific Goals, as applicable. The contract will be awarded to the suppliers that scores the highest total number of adjudication points per category.

Calculating of points for Specific Goals

- 3.2.4. Points will be awarded to a supplier for specific goals. Bidders are required to submit the original and valid proof for preference points claimed or certified copies thereof; to substantiate their preference points claims. SBD 6.1 must also be duly completed, signed, and submitted alongside the bid to claim preference points. Failure to do so will result in Specific Goals preference points being forfeited.

3.2.5. The 80/20 as an appropriate preference point system will be used in the evaluation and adjudication of this quotation. However, it must be extended that the lowest acceptable supplier will be used to determine the applicable preference point system as per regulation (Section 3(2)(b) of the Preferential Procurement Regulations (PPR) 2022, which states: "If it is unclear which preference point system will be applicable, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable supplier will be used to determine the applicable preference point system". Therefore, either 80 or 90 points, depending on the rand value of the quotation, will be awarded to the suppliers who offers the lowest price, and proportionately fewer points are awarded to those with higher prices. Either 20 or 10 points are then available as preference points for specific goals, as applicable. The contract will be awarded to the suppliers that scores the highest total number of adjudication points per category.

3.2.6. Points will be awarded to a supplier for specific goals in accordance with the table below:

B.	PRICE	80
C.	Specific Goal	Number of points (20)
	51% black ownership	8
	50% women ownership	4
	Youth ownership	4
	Disability	4
	Non-compliant contributor	0

3.2.7. The SCM unit of the DFFE / MLRF will allocate preferential points (Specific Goals) to each company for its contribution towards empowerment of the black designated groups as prescribed in the Preferential Procurement Regulations of 2022, women, people with disabilities, youth as well as local economic development.

3.2.8. A supplier will not be disqualified from the quotation process if the suppliers does not submit supporting documents substantiating the specific goals preference points claimed or is a non-compliant contributor. Such some suppliers will score 0 for Specific Goals.

3.2.9. Suppliers will be subject to SCM conditions of the Department – MLRF and the Preferential Procurement Regulations, 2022 issued in terms of section 5 of the Preferential Procurement Policy Framework Act (Act No 5 of 2000) (PPPFA).

3.2.10. The PPPFA prescribes that the lowest acceptable bid will score 80 or 90 points for price (as explained above, depending on whether the bid prices is more or less than R50million). Suppliers that quoted higher prices will score lower points for price on a pro-rata basis. Where functionality is set as a criterion, only bid proposals that meets functionality requirements will be considered to be evaluated on price and Specific Goals.
