THE MINISTER

REPORT IN TERMS OF REGULATION 5(3) OF THE REGULATIONS PROMULGATED UNDER THE MARINE LIVING RESOURCES ACT, 1998 (ACT No. 18 OF 1998): APPEAL IN TERMS OF SECTION 80 OF THE MARINE LIVING RESOURCES ACT, 1998 (ACT No. 18 OF 1998): DEIDRE ELVONA VAN WYK

1. PURPOSE

To submit a report as provided for in terms of Regulation 5(3) of the Regulations promulgated under the Marine Living Resources Act, 1998 (Act No. 18 of 1998) (“the MLRA”), with regard to an appeal by Deidre Elvona van Wyk.

2. GROUNDS OF APPEAL

The Appellant’s first ground of appeal relates to section 5 (fishing performance). The Appellant argues that she has exercised her right every year and that can be ascertained by the permits activated for nine seasons. The Appellant therefore argues that she should get the maximum points (100%) not (66.67%) on fishing performance. The Appellant indicates that the projected score attained by the appellant for section 5 should be 35 points.

The Appellant’s second ground of appeal relates to section 6 (Transformation). The Appellant is of the view that section 6 should have been weighted as she has made efforts to donate and procure goods to majority black owned companies. The Appellant argues that she should be rewarded for going an extra mile. The Appellant indicates that she should have scored 100% for section 6.3 and 6.4 respectively.

3. DELIBERATIONS

The Appellant was categorised as a Category A applicant, this category was for individuals who held West Coast Rock Lobster (Nearshore) fishing rights during the 2005 Long-Term Rights Allocation and Management Process (“LTRAMP2005”). The Appellant scored above the set minimum threshold of 40% for previous right holder applicants and accordingly was awarded a fishing right.

The Appellant attained a score of 66.67 on section 5.2 in relation to catch records based on the information provided by the applicant at the time of application. The Appellant caught 85% of her allocation within Zone B and caught 100% for 8 of 10 years with no over catch.

Section 6 is zero (0) weighted in West Coast Rock Lobster (Nearshore) as it is covered under section 1 of the application form.
