## NOTES: YOU MUST READ THESE

1. This Application Form is current as of 30 November 2022. It is the responsibility of the Applicant / Environmental Assessment Practitioner (“EAP”) to ascertain whether subsequent versions of the Application Form have been published or produced by the competent authority. Note that this Application Form replaces all the previous versions. This updated Application Form must be used for all **amendment** applications. A copy of this form and its appendices must be kept by the applicant and must be attached to the renewal Application Form (together with the original Application Form and its appendices) if / when the applicant applies for renewal of the permit (if applicable).
2. This document is divided into the following sections:  
Section A: Applicant Details  
Section B: Amendment Details  
Section C: Map of the area(s) where vehicular access is sought  
  
Section C must only be completed if changes to the access point(s) / area(s) to be accessed is sought. All required sections must be completed in full.
3. Please ensure that all the necessary information required as annexures or attachments to this application are provided to facilitate the consideration of your application. Applications must be submitted to the address or email address listed on Page 1 of this Application Form.. Applications not containing the required signature(s) shall not be considered by the relevant authority until such signed document(s) has / have been received.
4. The required information must preferably be typed within the spaces provided. The sizes of the spaces provided are not necessarily indicative of the amount of information to be provided. The space provided extend as each space is filled with typing. A legible font type and size must be used when completing the form. The font size should not be smaller than 12pt (e.g. Arial Narrow 12). A digital copy of the Application Form is available on the Department’s website (details on Page 1). If the application is completed by hand, the required information must be attached to the Application Form where the spaces provided are insufficient.
5. The use of “not applicable” in the Application Form must be done with circumspection and all fields must be completed. It is essential to answer all relevant questions to ensure that the application can be properly assessed. Failure to fully complete the Application Form could result in a request for further information, which could cause unnecessary delays in the processing of the application.
6. Unless protected by law, all information contained in and attached to this Application Form will become public information on receipt by the competent authority. This application must be completed and signed by the applicant. If the application is completed by a third party (such as a consultant or legal representative), then this third party’s details must **also** be provided as required in this application.
7. If this application is for an amendment type (c) – (f) as listed above, the Department will submit your completed application for comment to the relevant provincial authority and / or manager of a protected area if your application affects a coastal protected area. This is due to the co-operative governance requirements of the Constitution of the Republic of South Africa. The Department will, in consultation with the relevant authority(ies), endeavour to process your application within a

reasonable period of time, defined as 60 (sixty) working days, subject to inclusion of all the information required in the application form. You are therefore requested to submit your application form **at least 60 (sixty) working days prior** to the date on which you propose to use a vehicle(s) in the coastal area if applying for an amendment of type (c) – (f) listed above. If applying for an amendment of type (a) or (b) in the list above, a processing time of 40 (forty) working days applies and the application must be submitted **at least 40 (forty) working days prior** to the date the amended permit is required.

8. The timeframes stated in paragraph 7 above only commences once all required information requested in this Application Form has been submitted to the Department and includes a duly completed Application Form.
9. Additional information may be requested at any time during the application process if incomplete information was submitted or if new information requiring further investigations or information comes to light during consultation with the relevant authority(ies) or site visit(s). Consultations by the applicant with specific organisations, authorities, persons or interested parties may be requested by the Department and the application will be considered incomplete until the results of such consultations have been submitted to the Department in writing.
10. If applicable, the renewal Application Form and all its appendices must be submitted to the Department at least **50 (fifty) working days** before the expiry of the original permit. If the original permit lapses before a renewal application is received by the Department, a new application must be submitted to the Department (i.e. a renewal application will only be considered if received by the Department while the original permit is still valid). Submission of an application for renewal does not automatically extend the validity of the original permit; therefore, the activity may not continue after expiry of the original permit unless a renewal or new permit has been granted by the Department. Permits may only be renewed once, after which a new application must be submitted.
11. Please note that, on expiry of this amended permit (if authorised), you must return the original certificate(s) issued with the permit, at your own cost, to the Department within ten (10) working days of the expiry of the permit.
12. Amendment of permits do not affect the timeframes provided in the original (or renewal) permit issued unless the amendment application is for an extension of the operational timeframe in the case of ORV permits for sardine run.
