NATIONAL ASSEMBLY
(For written reply)

QUESTION NO. 1554 {NW1694E}

INTERNAL QUESTION PAPER NO. 16 of 2018

DATE OF PUBLICATION: 18 May 2018

Ms V Ketabhle (EFF) to ask the Minister of Environmental Affairs:

With reference to the reply to question 2342, on 24 August 2017, (a) what number of (i) random DNA samples were taken and (ii) the specified DNA samples were analysed to test for compliance and (b) what was the result of the analysis?

1554. THE MINISTER OF ENVIRONMENTAL AFFAIRS REPLIES:

- (a) (i) and (ii) According to the results of inspection conducted by the officials, twenty five (25) exhibit bags from OR Tambo International Airport Cargo office for the Department of Environmental Affairs were analysed by the National Zoological Garden (NZG) forensic laboratory in April 2018. A ziplock bag was used to randomly collect DNA samples of the pieces of lion bones exported. Each ziplock bag contained a piece of a bone.
- (b) All the twenty five (25) DNA result submitted to the NZG forensic laboratory were found to be the specimens of Lion (*Panthera leo*), which is in compliance with the export permit.
